ELECTION RESULT ECHOES

What do you think? Was it enough to convince you that when the mass arouses itself the struggle-hold of the few can be broken? We will now have an AMERICAN for President, one who will not approve the hanging of the plaintiff. For this I am truly thankful. Nor do I believe that he will ever call the prohibition law a "noble experiment".

Superior Court

A good sized jury docket that appeared during the sitting on the opening day divided rapidly, leaving only one case for a hearing Thursday forenoon. The case was a hearing of a writ of habeas corpus for the plaintiff, Caroline Pallech of Rumford, against Stanley Anderson, a barber in Dixfield, to recover damages, who was alleged to be the father of her illegitimate child. The defendant was the only one who appeared. After deliberating two hours, the jury returned a verdict in favor of the plaintiff. J. E. Henry and George A. Hutchins appeared for the plaintiff and Stanley Anderson for the defendant.

In making my annual plea for the Red Cross "Roll Call," I bring to your notice that our campaign begins on Armistice Day, November 11, running through to that of the National Day of the American National Red Cross is a most worthy organization, doing good to every body, no matter what his class, creed, or color. During the past year, fifteen billion bread has been given to the poor of the world. What a beautiful spectacle of the "Good Samaritans" do we see in the Red Cross activities of America.

LOCAL MAN MAKES LEFT HAND VIOLIN

The mythical left hand monkey wrench has nothing on a violin made by Eugene Anderson, of Norway. This unusual instrument, designed to be played with the left hand, is two inches longer than the usual type and is nearly two inches less in width. The specially designed back, which is deeper in the center than at the edges, gives the instrument a volume equal to that of the standard design and it registers all notes, from highest to lowest, with perfect clarity. Its design makes it unusually light and easy to handle the maker states. The distance from bridge to neck is the same as the standard model, thus playing the same notes as the usual type.

The young men were arrested as the results of several breaks in cottages on Kezar Lake, near Lovell.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

But be sure for your health's sake that you ask for and get Kruschen Salts. Get them at I. V. Ashton's—or any drug store in the world.

AUTUMN

The leaves are turning and falling. The sky is growing grey. The winds blow cold and louder. Then comes another day. The garden is being gathered. It has been green all the year. Until we first felt Jack Frost. Then we knew Autumn was here. Next comes the raking of the leaves. Such fun as we make. We rake them up, and jump in them. And make believe we are autumn. After the leaves are raked. It grows cold, and colder. Until it is about a month. The wind blows colder.

Old Bill Says

Monday morning, October 31, I heard a crash and thought it must be an automobile accident, out of the house. Well, I looked out in the road and all kept on, but still the noise came. I looked into our sitting room and the floor was covered with glass and there was a partridge taking around the room. He had broken out a large square of glass but couldn't get up enough to break out, but things looked dubious in there. I caught Mr. Bird and put him out through the same window he came in. The next.

High School

Open House—Parents Visit. Parents' Night at Norway High School attracted a hundred and more of the parents and friends of the school building, Wednesday evening. Principal Verdal M. Sampson and his assistants prepared an entertainment out of the ordinary, but in line with daily work in the school. The program was very practical and an evening session to show practically all the high school in action has been the rule, but Wednesday night the program was more practical and displayed to good advantage many activities, which were a revelation.

The assembly rooms were thrown open and a well equipped stage furnished the setting for his of clever acting under the coaching of Mrs. Clara Parnell (Cole). After a selection by the school orchestra, under the leadership of Eleanor Wood, a playlet was given by Friends by the Juniors, under Miss Daphne Winslow, and dramatized from one of the books used in the class room. Probably not many in the audience were keen for the language after years from school, but good acting and plenty of pantomime put over the humorous skit. The characters in the French play were Althea, Margaret, and Jeanne. The skits were by Bartlett, Ralph Akroyd, Francis White, Robert Frost, Philip Saleeby, Roberta Howe.

A love violin solo was played by Marion Judkin and followed by the junior and senior Latin students, in a play with a Greek flavor, coached by the instructor Mrs. Ella Clark Brooks. This was another skit, with a pronunciation revised. Moore called on Mrs. Guy Tower, one afternoon, recently.
